INSECT RESISTANCE MANAGEMENT

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

RESPECT THE REFUGE

Respect the Refuge is a training and communication campaign that helps heighten awareness of Insect Resistance Management (IRM) requirements, as mandated by the EPA, when insect-protected traits are planted. When using insect-protected technologies, please respect the refuge and plant appropriate refuge on your farm. Please refer to the most current IRM Guide.
