GENUITY® VT DOUBLE PRO RIB COMPLETE® CORN BLEND

11407

GENVT2P RIBC CB

11407 performs at a high level on all soils. It responds to fungicide applications and higher populations, and has the stalk and root to carry big yields.

- Superior yields on all soils
- Benchmark hybrid in 114RM

ALSO AVAILABLE AS:

- Genuity® VT Triple PRO®
- Conventional

Notes

GENERAL CHARACTERISTICS

Exp #:	X21142TM
Year Released:	
Relative Maturity:	114
Heat Units:	
Seedling Vigor:	
Emergence:	
Standability:	
Health:	
Drought Tolerance:	· ·
Wet Soils:	
Test Weight:	
Silage Yield:	
Silage Quality:	
Fungicide Response:	
Recommended Soil Type:	_
No-Till Adapted:	
Herbicide Sensitivity:	
Delayed Harvest:	ver y Good

PLANT CHARACTERISTICS

Plant Height:	Medium Short
Plant Color:	Green
Leaf Attitude:	Semi-Upright
Stalk Strength:	Excellent
Root Strength:	Excellent
Staygreen:	Good
Plant Intactness:	
Corn-on-corn:	Very Good
Green Snap:	Superior
Nitrogen Application Timing:	Pre V4
Gray Leaf Spot:	Average
Northern Corn Leaf Blight:	Excellent
Southern Corn Leaf Blight:	Very Good
Goss' Wilt:	Good
Stalk Anthracnose:	Average

ADAPTATION AREA

Soil Productivity	Performance	Population
Low Soil	Superior	27-29,000
Medium Soil	Superior	28-32,000
High Soil	Superior	32-34,000

EAR CHARACTERISTICS

Ear Type:	Semi-Flex
Ear Height:	Medium
Kernel Rows:	
Cob Color:	
Dry Down:	Good
•	
Husk Cover:	Very Good

GENUITY® VT DOUBLE PRO® RIB COMPLETE® CORN BLEND

Genuity® VT Double PRO® RIB Complete® Corn Blend contains the first double-stacked trait with dual modes of action for above-ground insects and maximum protection against corn earworm.

REFUGE: 95:5 BLEND*

*Blend indicates Refuge in the Bag. These products require no incremental structured/blocked refuge.

GENUITY® VT TRIPLE PRO® CORN BLEND

Years of product testing and research have led us to Genuity* VT Triple PRO* Corn Blend, the industry's first dual mode-of-action, above-ground insect protection in corn which is stacked with below-ground insect protection and Roundup Ready 2* Technology.

REFUGE: 80:20 BLOCK

Planting Refuges, Preserving Technology

INSECT RESISTANCE MANAGEMENT

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

RESPECT THE REFUGE

Respect the Refuge is a training and communication campaign that helps heighten awareness of Insect Resistance Management (IRM) requirements, as mandated by the EPA, when insect-protected traits are planted. When using insect-protected technologies, please respect the refuge and plant appropriate refuge on your farm. Please refer to the most current IRM Guide.

Monsanto Company is a member of Excellence Through Stewardship* (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship* is a registered trademark of Biotechnology Industry Organization.

Agrisure*, Agrisure Viptera* and E-Z Refuge** are trademarks of a Syngenta Group Company. Agrisure* Technology incorporated into these seeds is commercialized under license from Syngenta Seeds, Inc. Herculex* Technology incorporated into these seeds is commercialized under license from Dow AgroSciences LLC.

Seed products with the LibertyLink* (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post-emergent weed control of Liberty* herbicide for optimum yield and excellent weed control.

B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete* corn blend does not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Genuity* SmartStax* RIB Complete* and Genuity* VT Double PRO* RIB Complete* corn are blended seed corn products. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Roundup Technology® includes Monsanto's glyphosate-based herbicide technologies. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. Genuity and Design®, Genuity Icons, Genuity®, Processor Preferred and Design®, RIB Complete and Design®, RIB Complete®, Roundup PowerMAX®, Roundup Ready 2 Technology and Design®, Roundup Ready 2 Yield®, Roundup Ready®, Roundup Technology®, Roundup Ready®, Triple PRO®, VT Triple PRO®, and YieldGard VT Triple® are trademarks of Monsanto Technology LLC.
