

CORN

AGRISURE® GT

1156 GT

1156 is a tremendous yielding hybrid with excellent grain quality. It moves north to south extremely well for a 115-day hybrid.

DAYS TO MATURITY:

115

- Best on high yield fields
- Superior grain quality
- Excellent health and stalks
- Excellent corn on corn

ALSO AVAILABLE AS:

- Conventional

NOTES

GENERAL CHARACTERISTICS

Exp #: NA
 Year Released:2009
 Maturity:..... 115
 Heat Units:2810
 Seedling Vigor:..... Average
 Emergence:..... Good
 Standability:..... Very Good
 Health: Excellent
 Drought Tolerance:..... Good
 Wet Soils:..... Average
 Test Weight: Superior
 Silage Yield:..... Very Good
 Silage Quality:..... NA
 Fungicide Response:..... Average
 Recommended Soil Type:.....MYE-HYE
 No-Till Adapted:..... Yes
 Herbicide Sensitivity:.....None
 Delayed Harvest:..... Very Good

PLANT CHARACTERISTICS

Plant Height:..... Medium Tall
 Plant Color:..... Green
 Leaf Attitude:.....Semi-Upright
 Stalk Strength:..... Excellent
 Root Strength:..... Average
 Staygreen:..... Very Good
 Plant Intactness:..... Very Good
 Corn-on-corn:..... Superior
 Green Snap: Superior
 Nitrogen Application Timing:..... Pre V4
 Gray Leaf Spot:..... Good
 Northern Corn Leaf Blight:..... Good
 Southern Corn Leaf Blight:..... Good
 Goss' Wilt: Good
 Stalk Anthracnose:..... Good

ADAPTATION AREA

Soil Productivity	Performance	Population
Low Soil	NR	NR
Medium Soil	Excellent	26-30,000
High Soil	Superior	30-34,000

EAR CHARACTERISTICS

Ear Type:..... Semi-Flex
 Ear Height:..... Medium High
 Kernel Rows:..... 16-20
 Cob Color: Red
 Dry Down: Good
 Husk Cover:..... Good

AGRISURE® GT

The Agrisure® GT trait provides tolerance to in-crop applications of glyphosate-based herbicides with the freedom for growers to choose their preferred glyphosate brand.

REFUGE: 80:20 BLOCK

INSECT RESISTANCE MANAGEMENT

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

RESPECT THE REFUGE

Respect the Refuge is a training and communication campaign that helps heighten awareness of Insect Resistance Management (IRM) requirements, as mandated by the EPA, when insect-protected traits are planted. When using insect-protected technologies, please respect the refuge and plant appropriate refuge on your farm. Please refer to the most current IRM Guide.

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

Agrisure®, Agrisure Viptera® and E-Z Refuge™ are trademarks of a Syngenta Group Company. Agrisure® Technology incorporated into these seeds is commercialized under license from Syngenta Seeds, Inc. Herculex® Technology incorporated into these seeds is commercialized under license from Dow AgroSciences LLC.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post-emergent weed control of Liberty® herbicide for optimum yield and excellent weed control.

B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend does not require the planting of a structured refuge **except** in the Cotton-Growing Area where corn earworm is a significant pest. Genuity® SmartStax® RIB Complete® and Genuity® VT Double PRO® RIB Complete® corn are blended seed corn products. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Roundup Technology® includes Monsanto's glyphosate-based herbicide technologies. **ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.** Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. Genuity and Design®, Genuity Icons, Genuity®, Processor Preferred and Design®, RIB Complete and Design®, RIB Complete®, Roundup PowerMAX®, Roundup Ready 2 Technology and Design®, Roundup Ready 2 Yield®, Roundup Ready®, Roundup Technology®, Roundup®, SmartStax®, VT Double PRO®, VT Triple PRO®, and YieldGard VT Triple® are trademarks of Monsanto Technology LLC. LibertyLink® and the Water Droplet Design® are registered trademarks of Bayer. Herculex® is a registered trademark of Dow AgroSciences LLC. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. All other trademarks are the property of their respective owners.
